Formentera balearic islands holidays

UTC+01:00SpanishEUR: Euro If it's a laid-back, paradisiacal atmosphere you're looking for, Then Formentera holiday is just the ticket. Set in the blue waters of the Mediterranean, Formentera is the smallest of Spain's Balearic Islands and offers a more remote, intimate holiday experience than neighbouring islands such as Ibiza. Although small, there are many reasons to visit Formentera, including the beautiful golden beaches, the enviable climate and the peaceful, sparsely populated atmosphere. The romance and chilled way of life here is mixed with a touch of that vibrant Spanish flair. Formentera is a very diverse island, and you experience its pleasures and beauty in any way you want. There are many self-catering holiday apartments in Formentera for a budget-friendly getaway, but for something more luxurious and opulent there are also great all-inclusive hotels and seaside resorts. We love the white sands of Ses Illetes beach, Cala Saona Beach & lovely Es Pujols BeachExplore Formentera's striking coast on a boatThe island's crystal clear water are ideal for windsurfing, kitessurfing, scuba diving, sailing, canoing, water skiing & much more! Enter as much or as little information as you want. You don't need to know where or when you're going to see our best pricesWe search through 1000s flight and hotel combinations to offer you the best deals within secondsS by quickly finding the cheapest days to travelTime to explore Food & DrinkHoliday typesLocal hotspotsTime to explore While Formentera is the smallest of the Balearic Islands, it's definitely big on attractions. There are many great things to do in Formentera that you won't experience anywhere else in Spain. ^ The excitement begins the moment you arrive. Your first steps on the island are via the working port of Formentera, located in La Savina. This is a bustling hub of activity (and home to multi-million pound yachts), where you'll relax on the beautiful beaches of Illetes and Llevant. No visit to Formentera is complete without the island's capital of San Francisco Javier, known locally as Sant Francesc. The village is dominated by the fortress-style church in the main square, with its classic whitewashed exterior typical of the breathtaking architecture of the Mediterranean. For perhaps the best view of the island, visit the scenic Lighthouse of Faro de la Mola, located on the edge of the cliff. While you're here, it's not too far to visit the monument erected in honor of the French writer Jules Verne, who loved the island so much that he used it as a backdrop for his works. For something other than the typical Balearic Islands area, you should visit Can Marroig; an area that is part parkland and part farmland, and was established in the 1700s. It's a beautiful, relaxing place where you can enjoy a picnic hidden from the sun below thick pine cover. Of course, one of the biggest and best reasons to visit the Balearic Islands is for the beaches, and Formentera certainly does not disappoint, with a huge choice of beautiful, soft sand to enjoy. Some of the best beaches in Formentera can be found once you get off the ferry Illetes Beach and Llevant Beach are located in La Savina, where the port of Formentera is located. So if you are not waiting to jump into the clear waters of the Med, then these beaches are ready and waiting for you upon arrival. On the other side of the island you will find Playa Migjorn, which runs along the coast for an impressive 8 km. It's different from the beaches in La Savina, more raw and robust and perfect for anyone who appreciates a natural, untouched landscape. It's a great place for total rest and relaxation. All the beaches of Formentera have a sense of the exotic about them, and a big part of that is the lack of high-rise buildings. Although you will find a number of hotels and restaurants on the beach, especially around Es Pujols Beach, the minimal development makes for a very secluded feel. The sun's rays are certainly strong in Formentera, but the chiringuitos - the local beach bars - are the perfect escape. On the island it is common to get out of the azure waters, go off towel and go straight to a cool drink and eat before returning to the waves of the ocean. It's the way of life. Food & Drink The cuisine of the Balearic Islands is strongly based on Mediterranean cuisine, and you'll see many Formentera restaurants mixing Mediterranean and Catalan influences to create something really tasty. As on the more famous Balearic Islands of Majorca and Menorca, visitors can sample delicious local shrimp and lobster in many of the restaurants here. The best seafood restaurants in Formentera are located near the marina, where local fishermen are heading early for the catch of the day. Visitors can also choose to sample the traditional Spanish tapas and paella staples when making a trip to the island. On a tapas tour, you'll find juicy sobrassada sausage and small plates of fried fish, among other dishes. Wash it all off with a local lager or red wine from one of Spain's prestigious wine regions. Formentera nightlife definitely gives Ibiza a run for its money! The small size of the island makes it easy to travel from club to club, making it easy to try out some of the island's best nightlife hotspots. Many bars in Formentera have something of a laid-back, almost hippie vibe; an atmosphere left over from when the island was a hippie port. While you won't find ridiculously big clubs and an always-on-the-go feel here, you'll find bars and clubs where you'll relax and enjoy island life. Nightlife here is a bit more lowkey than it is in Ibiza, but don't let that fool you! There are plenty of big parties here, with the clubs from Play host to great DJs who know what it takes to get the crowd moving. Dance until the sun rises and then go to the beach... that's how it's done! Holiday types Book a one resort in Formentera and jet off to one of the most welcoming of the Balearic Islands. Families are very well looked after here, and children will love to spend time on this spectacular island. Beaches are an important highlight for families, especially those with young children who like to spend time outdoors. While families can head north for a more secluded place, there may not be a better place for kids than Playa Illetes near the harbour, with fun activities for the whole family to enjoy. Be sure to pack your walking shoes, as Formentera has a fantastic network of old trekking trails, many of which are suitable for small legs. In total, the island has more than 35 km of exciting trails to explore... and you rent bikes and cycle past them. If you want to show your children as many beautiful places as possible, you will be pleased to hear that a day out on the exciting island of Ibiza is just a short ferry. This larger island is a great place to shop and experience the hustle and bustle of the Balearic Islands before returning to the quieter Formentera. Couples find plenty of romantic places on Formentera, from walks on secluded beaches at sunset, to hopping from tapas bar to tapas bar in Sant Francesc... there are many romantic things to do on the island. One of the most beautiful sights to enjoy with a partner is the Es Cap de Barbaria Lighthouse, which overlooks the Mediterranean. Couples should try to make time their visit coincide with the sunset for a truly magical end to a magical day. You could even pack a picnic dinner to enjoy in the warm evening. The village of San Francisco Javier is one of the most beautiful places on the whole island. Stroll hand-in-hand through the small streets and absorb the tranquil island atmosphere, or take a tour of the local sanctuary and castle, and make your way to the top of the building for incredible views of the village. Local hotspots Formentera has a vibrant culture, much of it centered around the beach. If you have more than a dozen beaches, it's hard to think of anything else! But there are many more cultural attractions here. The island's Ethnography Museum offers a fantastic insight into life on Formentera. A tour of the museum gives visitors a taste of past and present; it focuses heavily on the island's contribution to agriculture in Spain. The museum is completely free for everyone to enjoy. Torre Garrovert - a beautiful old watchtower overlooking the coast of Africa - was once used to spot pirates as they headed for the Balearic islands. Today, however, it simply offers stunning views of the Mediterranean, while also offering a great look at Formentera's history. Torre Garrovert is actually one of the many watchtowers spread all over the island. Many are easily accessible and open to the public, giving you the opportunity to climb these ancient structures, enjoy the views and feel the Mediterranean breeze. 95% Customer satisfaction with over 17,000 feefo feefo was easy to search and find a holiday, found that you could search for 'anywhere'. Has plenty of offers and savings which is a plus. ZouHannah StokesIt was very easy to find our perfect holiday with Loveholidays as they show you the best deals! The website is also very easy to navigate and all you ... Angelie MacapagalThey good service. Simple and simple steps to follow Joej Rhodes Rhodes
